ARE GERMAN RESOURCES EXHAUSTED?

THE COFFEE POT

The big coffee pot on top of the store withstood the storm and remains fast and firm to its moorings—a tribute to the strength of the fresh home roasted coffee it represents.

There is nothing like our fresh roasted coffee for strength and purity and flavor—six kinds, and one of them just suits your taste.

HARDY NEWTON

STORM DISTRICT FAST RECOVERING

Galveston Hopes to Have Water Tuesday—No Disease There Yet.

[By Associated Press.]
Galveston, Tex., Aug. 23.—The coast country situation is rapidly approaching normal. Galveston is still without sufficient water, but it is hoped to have water by tomorrow. No illness as a result of the storm has appeared.

WASHINGTON TO GET FACTS FIRST

Washington, Aug. 23.—White House officials announce that "as soon as all the facts regarding the sinking of the Arabic are ascertained, our course will be determined."

TASTY DELICACIES

For your table—Pickles, Ketchup, Sauces and all other spicy things that go to add to the pleasantness of your meal.

WOMEN DOCTORS INCREASE IN GERMANY

Number Far Less Than Male Physicians, but Ratio Constantly Increasing.

Berlin, Aug. 23.—(Correspondence of the Associated Press.)—Though their number is still extremely disproportionate to their male practitioners, the women physicians in Germany are constantly on the increase, according to the latest statistics compiled for the medical journals covering the year 1913.

In that year, in all Germany, there were 195 female physicians, out of a total of 34,136 for a population of 66,835,000. Notwithstanding this small number, it is noticeably larger than in 1912, and is believed to have been considerably increased in 1914 and 1915.

For the entire Empire in 1913 there were 5.11 doctors for every 10,000 inhabitants. In the big cities there were 9.6 physicians for every 10,000 persons and in the country 3.8 for the same population.

The city of Wiesbaden, with twenty-eight doctors for every 10,000 people, led Germany, and the manufacturing city of Hamburg was last, with but 2.3 doctors per 10,000 inhabitants. In Greater Berlin there were in 1913 4,151 doctors, or 11.09 for each 10,000 inhabitants.

SHERIFFS AND MEXICANS FIGHT

[By Associated Press.]
Brownsville, Tex., Aug. 23.—It is reported that a band of Mexicans and a sheriff's posse fought today in Hidalgo County. The unconfirmed report says several Mexicans were killed.

SUCH IS DECLARED THE SITUATION SHE FACES

German Treasurer Told Cabinet Members the New War Loan Will Completely Exhaust the Empire's Financial Resources—He Believes It Time to Prepare for Honorable Peace. The German Chancellor Favors Peace Proposals to the Entente Powers—Von Moltke, Ex-Chief of Staff, Says Little Hope of Ever Completely Defeating Russia—Japan Coming to Russia's Aid—Russia Severely Punishes Germany on Gulf of Riga—Italy Sends by Transports Many Troops—It is Believed They Are Going Against Turkey—British Submarine Does Deadly Work.

[By Associated Press.]
Amsterdam, Aug. 23.—The Telegram claims that a meeting of the Cabinet Ministers, political leaders and influential writers, called by the German Chancellor before the Reichstag last Thursday, the Secretary of the Treasury advised them that the new war loan will completely exhaust the Empire's financial resources, and it was therefore needful to prepare for honorable peace.

The Chancellor is reported to have declared in favor of peace proposals to all the Entente powers.

General von Moltke, former chief of staff of the army, it was said, declared there was little possibility for the complete defeat of the Russians.

JAPAN TO AID RUSSIA.

[By Associated Press.]
Tokio, Aug. 23.—Premier Okuma announces that Japan has decided to give Russia greater assistance in the war. It is understood that this help will be in the form of greater supplies of munitions. The Associated Press learns that Japan has decided to employ all available governmental and private resources for increasing the output of munitions for the allies.

ITALY SENDS TROOPS.

[By Associated Press.]
Rome, Aug. 23.—Several transports laden with troops have left Naples.

Syracuse, Tranto and Brindisi under sealed orders for an unknown destination. It is believed they are going against Turkey.

Russia Claims Naval Victory.

[By Associated Press.]
Petrograd, Aug. 23.—Naval battles in the Gulf of Riga, during which the Germans lost heavily, lasted most of last week. The Germans got to the gulf under cover of a mist. There was nearly daily fighting. The little Russian gunboat Sivuch, with a crew of 148, was the only Russian ship reported lost. She sunk two torpedo boats. The losses of German warships today were given as one dreadnought or battle cruiser, believed to be the Moltke or a vessel of her type, two cruisers and eight torpedo boats. A British torpedo boat torpedoed the Moltke boat.

New Bulgarian-Turkish Treaty.

[By Associated Press.]
Berlin, Aug. 23.—The Overseas News Agency says the official reports from Sofia and Constantinople state that Turkey and Bulgaria have signed a new treaty, Turkey granting Bulgaria a railroad connection to the sea and Bulgaria agreeing to "observe benevolent neutrality."

Sank German Destroyer.

[By Associated Press.]
Paris, Aug. 23.—It is announced that two French torpedo boats last night sank a German destroyer off Ostend.

British Submarine Makes Haul.

[By Associated Press.]
Sofia, Bulgaria, Aug. 23.—A British submarine has torpedoed the Turkish collier Espahan, and the steamer Budo of the German Levant line, loaded with munitions and provisions, has been sunk in the Sea of Marmora.

Washington Still Waiting.

[By Associated Press.]
Washington, Aug. 23.—Secretary of State Lansing today cabled Ambassador Gerard asking whether the German government has received official report of the Arabic sinking. He stated officially the American government was not yet at all sure of the facts, and considers its information very fragmentary.

Was Unarmed Trader.

[By Associated Press.]
London, Aug. 23.—The Admiralty today issued a denial of the reports that the steamer Dunsley, torpedoed shortly before the Arabic was sunk, was an armed patrol. The report says she was a peaceful and unarmed trader.

Liner Torpedoed and Sunk.

[By Associated Press.]
Queenstown, Aug. 23.—The liner Dromed was sunk by a submarine. Shells fired in the four hours' pursuit killed the captain and two of the crew.

The Pure Food Laws

Are a blessing in many ways, but they don't go far enough. Unless your grocer is keenly alert and insistent upon quality and freshness, he may be as badly fooled now as before the enactment of the laws.

We don't depend wholly upon the law—we make our own demands for purity, and we see to it that they are complied with.

SOCIETY WOMEN MAKE MUNITIONS

English Women of Social Prominence at Work in Ammunition Factories.

London, Aug. 23.—(Correspondence of the Associated Press.)—A squad of forty-five women munition workers who have just been added to the staff of employees at the Vickers factories at Erith includes several women of social prominence.

Lady Scott, widow of Captain Scott the explorer, has joined the electrical department, where her deftness, acquired in her art as a sculptor, makes her invaluable for certain work requiring great delicacy of touch.

Lady Colebrooke and Lady Gertrude Crawford are employed as master turners in charge of lathes, while Mrs. England, sister of Lord Loreburn, Lady Gatacre and Mrs. W. H. Cowan, wife of a prominent member of the House of Commons, are employed in the lathe room in other capacities. Other employees include Mrs. Grief, wife of Colonel Grief of the London Scottish, and Mrs. Moir, wife of the chief of the New Inventions Branch of the Ministry of Munitions.

Miss Vickers, daughter of the head of the great munitions firm, has joined the next squad of workers, and will be assigned to a work bench in the course of the next fortnight.

The rates of pay for the women workers are the same as for the ordinary workman. Messrs. Vicker declined to take voluntary workers. The women mentioned above are earning from \$4 to \$5 per week of six shifts of fifty-four hours. They wear overalls of butcher blue, caps to match, leather gloves and strong boots. They live together in a house leased for the purpose, close to the factory.

VILLA'S ARMY IS DISINTEGRATING

Divided into Squads of One Thousand and Will Keep Up Guerrilla Warfare.

[By Associated Press.]
El Paso, Tex., Aug. 23.—Arrivals from Northern Mexico today brought reports that General Villa has decided on a guerilla warfare and is breaking up most of his army of 20,000 men into units of 1,000 each, which will do individual bush fighting. It is reported he does this because he believes Obregon's organization will strengthen his own.

A fat woman will do almost anything to become thin, except to quit eating.

The Overland's New Motor The Wonderful "Knight"

The "Knight" is a motor whose qualities have been proven by the severest tests that have ever been imposed upon a gas engine.

These tests were made by the Royal Automobile Club of England, under the supervision of their officials, allowing none of the "Knight" manufacturers to touch the motor during the entire test, which consisted of 132 hours of continuous running on the block under full load and a track-run of 3,000 miles.

Not one time during this severe test did the power line of the 48 H. P. "Knight" motor fall below 133 1-3 per cent of the rating. Or, in other words, it developed 33 1-3 per cent more power than it was rated at.

The "Knight" feature is the sliding sleeve valve which, by working in direct ratio to the crank-shaft and controlled by solid connections instead of springs, insures a positive opening and closing of the valves at the proper moment at all speeds.

The wearing ability of the "Knight" has been proven by the fact that after running fifty thousand miles under all conditions, the motors have been torn down and found to be in excellent condition, the original "fine" grinding marks were still to be distinctly discerned on the sleeves.

There are so many more points of superiority about the "Knight" motor that it would be useless to try to put them in so small a space. We will have a "Knight" car in our sample room in the near future, and will be glad to tell you more of its good qualities.
